Software vendor specialized in geostatistics applied to mapping, mineral resource estimation, oil reservoir modeling, risk analysis, site remediation...

### **Geovariances, leader in applied geostatistics - GEOVARIANCES**

In statistics, originally in geostatistics, kriging or Gaussian process regression is a method of interpolation for which the interpolated values are modeled by a Gaussian process governed by prior covariances. Under suitable assumptions on the priors, kriging gives the best linear unbiased prediction of the intermediate values. Interpolating methods based on other criteria such as smoothness ...

Geography (from Greek *gēographia*, literally "earth description") is a field of science devoted to the study of the lands, features, inhabitants, and phenomena of Earth. The first person to use the word *gēographia* was Eratosthenes (276–194 BC). Geography is an all-encompassing discipline that seeks an understanding of Earth and its human and natural complexities ...
