Our understanding of vapor intrusion has evolved rapidly in the 2000s. A conceptual model should account for preferential pathways and barriers.

### **Recent advances in vapor intrusion site investigations**

A visual guide to Connectionist Temporal Classification, an algorithm used to train deep neural networks in speech recognition, handwriting recognition and other sequence problems.

### **Sequence Modeling with CTC - Distill**

1.1 Introduction . This study has investigated current state of interoperability among software applications used in BIM in conjunction with collaborative delivery of projects by interdisciplinary teams within the AEC industry. The work also has analysed implications for standards in this area, identified specific interoperability issues, and ...

### **Building Information Modeling (BIM) Interoperability**

Enterprise modelling is the abstract representation, description and definition of the structure, processes, information and resources of an identifiable business, government body, or other large organization.
