Self-measured BP monitoring - STEPS Forward

Blood pressure (BP) is the pressure of circulating blood on the walls of blood vessels.Used without further specification, "blood pressure" usually refers to the pressure in large arteries of the systemic circulation.Blood pressure is usually expressed in terms of the systolic pressure (maximum during one heart beat) over diastolic pressure (minimum in between two heart beats) and is measured ...

KDIGO Clinical Practice Guideline for the Management of

Hypertension (HTN or HT), also known as high blood pressure (HBP), is a long-term medical condition in which the blood pressure in the arteries is persistently elevated. High blood pressure usually does not cause symptoms. Long-term high blood pressure, however, is a major risk factor for coronary artery disease, stroke, heart failure, atrial fibrillation, peripheral vascular disease, vision ...
