2. z. Identify the major parts of a typical automotive engine. z. Describe the four-stroke cycle. Define common engine terms. z. Explain the basic function of the major parts of an

Modern Automotive Technology Chapter 11 - autotechl.com

The Modern Automotive Technology Workbook is two products in one: a text study guide and a shop activity guide. It is designed to help you learn the essential aspects of automotive technology.

Modern Automotive Technology: James E. Duffy

Modern Automotive Technology details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. This comprehensive textbook uses a building-block approach that starts with the fundamental principles of system operation and progresses gradually to complex diagnostic and service procedures.

CHAPTER 14

A laser is a device that emits light through a process of optical amplification based on the stimulated emission of electromagnetic radiation. The term "laser" originated as an acronym for "light amplification by stimulated emission of radiation". The first laser was built in 1960 by Theodore H. Maiman at Hughes Research Laboratories, based on theoretical work by Charles Hard Townes and Arthur ...
