

personality psychology larsen buss pdf

David M. Buss (born April 14, 1953) is a professor of psychology at the University of Texas at Austin, known for his evolutionary psychology theorizing and research on human sex differences in mate selection, with a focus on systems in which males are allowed violence against women in mating.

David Buss - Wikipedia

The Big Five personality traits, also known as the five factor model (FFM), is a taxonomy for personality traits. It is based on common language descriptors. When factor analysis (a statistical technique) is applied to personality survey data, some words used to describe aspects of personality are often applied to the same person. For example, someone described as conscientious is more likely ...
