### **Theories of Personality - McGraw-Hill Education**

The 8th edition of Theories of Personality follows in the tradition of the previous versions, by centering on the premise that personality theories are a reflection of the unique cultural background, family experiences, personalities, and professional training of their originators. The book begins by acquainting students with the meaning of personality and providing them with a solid foundation for understanding the nature of theory, as well as its crucial contributions to science.

### **Theories of Personality Information Center:**

Trait theories of personality imply personality is biologically based, whereas state theories such as Bandura's (1977) Social Learning Theory emphasize the role of nurture and environmental influence. Sigmund Freud's psychodynamic theory of personality assumes there is an interaction between nature (innate instincts) and nurture (parental influences).

This is a textbook about the various theories of personality in psychology. For the purposes of the book and for purposes of psychological study, personality as a construct is defined as "a pattern of relatively permanent traits and unique characteristics that give both consistency and individuality to a person's behavior" (p. 4).
